CALL FOR THE RECRUITMENT
OF RESEARCHERS
2007

2 RESEARCH POSITIONS IN

ASYMMETRIC ORGANOCATALYSIS
SYNTHESIS AND CHARACTERIZATION OF ELECTROCERAMIC MATERIALS

Aragon Agency for Research and Development, ARAGON I+D, announces the opening of 20 tenure-track research positions in different fields.

Two of these positions are an opening in **Asymmetric Organocatalysis and Synthesis and Characterization of Electroceramic Materials**. Candidates are expected to fulfil the requisites of academic background and the experience for the specific position and have at least six years of postdoctoral experience. Successful applicant will have a permanent contract with Aragón I+D Agency and will join the **Materials Science Institute of Aragon (ICMA, CSIC) (Zaragoza, Spain)**. Salary will be commensurate with the experience and potential of the candidate and will therefore be negotiated individually.

Requisites of the scientific profiles and the application form are on the web page www.araid.es.

Candidates should submit their application electronically to Aragón I+D according to information on our web page (www.araid.es), no later than **June 15th, 2007**.
